

Model 574 **Pressure Transmitter**

MODEL 574 PRESSURE TRANSMITTER

LOW RANGE DIFFERENTIAL PRESSURE, HAZARDOUS LOCATION APPROVAL

Viatran's 574 Series differential pressure transmitters are extremely accurate and durable units, designed specifically for test applications.

The model 574 comes with hazardous location option and has sealed external zero and span adjustments. The variable capacitance sensing technology provides extremely high overpressure protection, and long range stability, as well as high accuracy of 0.15%BFSL.

Model 574 Pressure Transmitter

High Accuracy

Many Options available

ShuntCal

Low Pressure Applications

Viatran's Model 574 differential pressure transmitter employs variable capacitance sensing technology for extreme reliability and high accuracy.

The 574 measures pressures from 5" WC to 100 PSI with over pressure protection to 3000 PSI.

The all welded 316 stainless steel construction allows the airtight and watertight 574 to be in corrosive environments, including salt air or caustic solutions.

External zero, span and calibration controls are hermetically sealed, yet are easily adjusted with Viatran's magnetically coupled drive system. The signal conditioner in the 574 allows for 5:1 ranging of the transmitter's standard pressure range.

CSA Explosion Proof Certificate of Compliance

US Intrinsic Safety Certificate of Compliance

Russian Metrology Certificate

R A		\sim	ш	٨	NI	IC.	ΛI	
IV	ᇉ	U	П.	н	IVI	IL.	ΑI	

Pressure Connection	1/4" NPT female on 2-1/8" centers on flanges 1/2" NPT female on 2", 2-1/8" or 2-1/4" centers with optional adapters
Static Pressure	3000 PSI (maximum)
Proof Pressure	3000 PSID (Single sided)
Burst Pressure	4500 PSID or 4500 PSI base pressure
Diaphragm Displacement	0.002 cubic inches at FSPR
Fill Fluid	Dow DC200 Silicone oil
Mounting	May be supported by process piping or by optional mounting bracket

MATERIALS OF CONSTRUCTION

Housing	316 Stainless Steel
Wetted Parts	316 Stainless steel and Viton O-Ring
Weight	7 lbs.
Identification	Laser etched onto body

OPTIONS	
PERFORMANCE OPTIONS	
DG	Improved temperature compensation to±1.0% FSO per 100°F
DJ	Submersible connector w/8' cable
DK	Special shunt calibration setting
DQ	Cleaning for oxygen service
EA	Special calibration run
FA	Russian Metrology Certificate
GE	Buna 'N' O-Rings
JJ	Loop powered direct mount indicator with explosion proof housing
MD	FM Intrinsic Safety Label
ME	CSA Explosion Proof Label
NF	Fast response time
NH	Customer specified identification
PW	1/8 DIN digital indicator
NSR	Non standard range
ALTERNATE PRESSURE PORTS	
YL	1/4" NPT (F) square flange
YQ	1/8" NPT (F) square flange

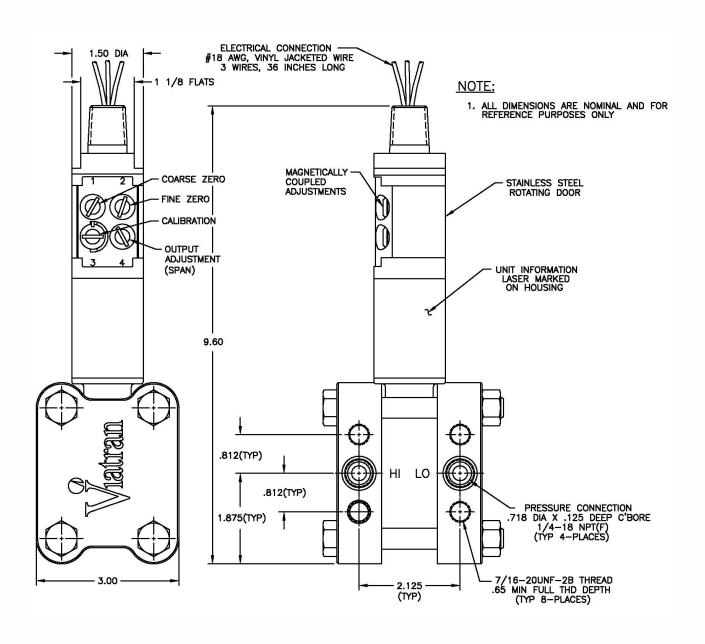

Note:

Application of some available options may affect standard performance. Consult your Viatran representative for details.
